OUR STORY

Founded by **Vicki Adams** in a college graphic design project, the **Hi-Fi Dance Hall** was envisioned as a place that brought the style and sophistication of the original New York City lindy hop halls into 21st century reality.

When first she visited the then-to-be-demolished X Ballroom in Y, IL, she saw her the bare bones that would make that dream a reality. M years of development and renovation later, the Hi-Fi has exceeded her lifelong dream.

But the most important part of this dream has always been the people who would fill it. Vicki couldn't be happier with the fun, friendly, welcoming community of like-minded dancers who have made the Hi-Fi their home. From the teachers and students to the bands, DJs, and bartenders, she thanks every person at the Hi-Fi for making up the dance family she always dreamt of.
